---

Dear admin team

Please note that this is addition to a similar email I sent in respect of the 25th…

We have issued a new set of directions under section 22A: the FHH 27th (non-coal)
Please remove it from the current live cases at: http://orr.gov.uk/consultations/access-consultations/current-track-access-applications/amendments-to-contracts-section-22-and-22a

But add it to the s22A decisions page http://orr.gov.uk/consultations/access-consultations/track-access-decisions/disputed-amendment-to-contracts-section-22a
For this we have:
Directions
Decisions letter
Agreement
Rights table
All attached in that order.

Plus other correspondence, attached in this order:
Email from Passenger Focus
Crossrail letter
Network Rail response
GBRF response
FHH response
GBRF response

Please note that I have tried to use Word docs wherever possible, but have had to resort to PDF on occasion. Please make sure the word versions show up only in final (and not final with tracked changes).
But **please redact from all the non-ORR correspondence all the personal information such as telephone numbers and email addresses (discuss if not clear) (✂), as per standard instructions.**

Also we need to arrange for the Public Register the following:
Directions with supplemental agreement and the rights table and the Decision letter.
We should forward on the signed agreement when we get it.

Thanks

Gordon

Subject: FHH 25th coal
Importance: High

Dear all

Please find attached directions in respect of FHH's 25th Supplemental Agreement, for coal traffic.
Please note the dates involved, and the request in the decision letter for a conformed contract etc.
These directions etc will appear on our website and Public register in due course.

Thanks

Gordon Herbert
