

## APPLICATION TO THE OFFICE OF RAIL AND ROAD FOR A FREIGHT TRACK ACCESS CONTRACT, OR AN AMENDMENT TO AN EXISTING CONTRACT

ORR ensures that train operating companies have fair access to the rail network and that best use is made of capacity.

Use this form to apply to the Office of Rail and Road (ORR) for:

- Directions under section 17 of *The Railways Act 1993* (the Act) for a new track access contract. This is for companies who want to use Network Rail's network where the parties are not able (for whatever reason) to reach agreement.
- Approval for a new track access contract under section 18 of the Act. This is for use where terms have been agreed by the parties.
- Approval of a proposed amendment to an existing track access contract, agreed by both parties, under section 22 of the Act.
- Directions under section 22A of the Act for an amendment to an existing track access contract. This is for someone seeking an amendment to an existing track access contract to permit more extensive use of the railway facility if the parties are not able, for whatever reason, to reach agreement.

The form sets out ORR's standard information requirements for considering applications. Our [track access guidance](#) (and our [making an application](#) guidance in particular) explains the process, timescales and the issues we will consider. Please read the guidance before completing the contract and this form.

If the facility owner and beneficiary have agreed terms, the facility owner should fill in the form. If not, the beneficiary should fill in the form.

A pre-application industry consultation is usually required before submitting an application. Please see the industry [code of practice for track access application consultations](#) for more information.

Network Rail should normally take responsibility for the pre-application consultation, where the terms are agreed. Before a consultation is made, complete this form up to the end of section 8. You should fill in the rest of the form after the consultation and before applying to ORR.

If, in the case of section 17 and 22A applications, the beneficiary and Network Rail have been unable to agree terms, the beneficiary should:

- (a) ask Network Rail to conduct a pre-application consultation in line with the code of practice; or
- (b) conduct a pre-application consultation itself, in line with the code of practice; or
- (c) submit the application to ORR and ask ORR to conduct the consultation, in which case, please complete this form in full before submitting it to us.

We are happy to talk to you informally before you apply. Please contact us at [Track.Access@orr.gov.uk](mailto:Track.Access@orr.gov.uk). You should use our current [model freight track access contract](#) as your starting point. Please ensure that you are using the latest version of this form as published on our [website](#). We may ask for applications which have not used the latest templates to be resubmitted.

You may also use and adapt this form if necessary to apply to use railway facilities other than those of Network Rail. Do not use this form for HS1, for which a separate form is available on our [website](#).

**1.9 Checklist of documents attached to the application form:**

- Proposed new contract or supplemental agreement
- Marked up Schedule 5 (where applicable)
- Marked up comparison to model contract (where applicable)
- All consultation correspondence
- Supporting evidence such as performance improvement plans or modelling exercises.
- Other supporting documents, side letters or collateral agreements (please list):

**1.10 Confidential redactions:** If there is any information you want us to exclude from publication please list it here and provide full reasons for the redactions. Please provide a redacted version of the document(s) that we can publish.

N/A
-----

**2. Licence and railway safety certificate**

**2.1** Please state whether:

- you intend to operate the services yourself; or
- have them operated on your behalf. 
  - if so, please name the proposed operating company:

--

**2.2** Does the proposed operator of the services:

- (a) hold a valid train operating licence under section 8 of the Railways Act 1993 or an exemption under section 7, ***and***
- (b) hold a valid safety certificate under the Railways and Other Guided Transport Systems (Safety) Regulations 2006.

If the answer to (a) ***or*** (b) is no, please state the point reached in obtaining a licence, exemption and/or safety certificate.

--

### 3. The proposed contract or amendment

**3.1 Application overview:** Please detail the proposed contract or amendment. This should cover the services, the commercial terms, and the reasons for making the application in the terms proposed. This information should be laid out clearly and concisely, and fully highlight the changes from the previous version of the contract (in the case of an amendment).

Sizewell C (SZC) is proposing to build and operate a 3.2-gigawatt new nuclear power station in Suffolk. Once operational, SZC will generate enough electricity to supply approximately 7% of UK's current electricity demand. It has been designated as a Nationally Significant Infrastructure Project.

Legge Infrastructure Services Limited (LIS) is an advisor to Sizewell C for the supply of rail borne materials. LIS are holders of a Freight Customer Track Access Contract and are seeking to secure capacity on the rail network to meet the programme requirements of the project, moving aggregates from various quarries to the construction site, with consequential movements of empty wagons back to the loading sites.

The project requires capacity for 4 trains per day into and out of the Sizewell C site in order to deliver up circa 5,000 tonnes of material to meet peak demand of construction programme. The origin locations of the materials are not known yet – this is subject to a formal procurement process. LIS are trying to ensure that there is sufficient capacity over the three key rail supply corridors:

1. Parkeston to Sizewell C
2. London (Wembley) to Parkeston
3. Leicester to Parkeston

**3.2 Capacity considerations:** Please detail the steps taken by the parties to satisfy themselves that there is sufficient network capacity for the services in the proposal. Include details on all relevant capacity considerations, including but not limited to track and power supply traction. Will the proposed Rights operate over an area subject to a **Declaration of Congested Infrastructure**, or will the capacity requirement result in a Declaration of Congested Infrastructure by Network Rail (under the Network Code)

N/A

**3.3 Safety risks:** Please explain any important safety risks that have been identified arising from the proposal and how these will be controlled (by reference to the facility owner's safety authorisation and the train operator's safety certificate).

N/A

**3.4 Contract duration:** For new agreements or extensions to existing agreements, please provide justification for the proposed duration and, if more than 5 years, with reference to the [Railways \(Access, Management and Licensing\) Regulations 2016](#).

N/A

**3.5 Performance:** Are there any implications for overall network performance? Please outline your assurance process that shows that any performance risk is tolerable in comparison to the benefits of the application. Please explain any risk mitigations. Please attach any associated evidence to support your case.

N/A

**3.6 Maintenance and renewals:** Are there any implications for the facility owner's maintenance and renewal activities?

N/A

**3.7 Terms not agreed with the facility owner (for applications under sections 17 or 22A only):** Please explain any areas of the application which have ***not*** been agreed, the reasons for the failure to agree and the reasons for seeking these provisions.

All aspects of this application are at not-agreed status with Network Rail. This application has not progressed through NR consultation due to the insufficient time available to complete this ahead of the ORR deadline to receive applications of 20th May 2024.

**3.8 Bespoke provisions (departures from ORR's model access contracts)**

Does the proposed contract include any departures from ORR's model access contract:

Yes

No

If yes, please set out and explain any:

- areas where the drafting of the application changes ORR's published template access contracts (as appropriate, cross-referencing to the answers below). Please also explain why these departures have been made.

N/A

- instances where the proposal departs from the charging and/or performance regimes established by ORR's latest periodic review (or subsequent interim reviews) as reflected in ORR's model access contracts, including the financial implications (e.g. establishment of an access charge supplement or rebate).

N/A

- new processes (e.g. a self-modification provision) which have been added. Please also demonstrate fully how this new process is robust and complete.

N/A

**3.9 Consolidated contract**

For amendments to existing contracts, is the version of the consolidated contract on our [website](#) fully up to date? If not, please explain why not.

N/A

## 4. The expression of access rights

**4.1 Changes to rights:** please provide full descriptions of any new rights required, as compared to the previous contract (in the case of an amendment). Please attach a fully marked-up version or document comparison of any tables in Schedule 5 which are being modified as a result of this application.

Please see attached marked up Schedule 5 rights table indicating requested changes. These are summaries below:

### All Aspirational 'New' Access Rights

Requirement is for 4 trips per day from Parkeston to Sizewell and return, 5 days per week, SX. Minimum 2.05 hours terminal time at Sizewell.

Requirement is for 4 trains per day from Wembley to Parkeston and return, via North London, Anglia main line, 5 days per week, SX.

Requirement is for 4 trains per day from Leicester to Parkeston and return, via Peterborough, Ely and Ipswich, 5 days per week, SX.

**4.2 Firm rights:** Do the Firm Rights in the proposal contract relate to service freight haulage contracts which you hold or will hold? If so, how? How does the duration of these haulage contracts compare with the duration of the proposed track access contract?

The rights proposed in this Supplemental relate to the need of Sizewell C to ensure there is sufficient rail capacity to supply up to 4 million tonnes of construction materials by rail to comply with the Development Consent Order of what is a nationally important infrastructure project.

**4.3 Contingent Rights:** Please set out the extent to which you expect to use the Contingent Rights in the application. In particular, please state whether the proposed rights are seasonal (eg 3 months each year) or occasional (eg MO, SX, etc)..

N/A

**4.4 Window size:** Please set out the reasons for the origin and destination window sizes used in the Rights Table in Schedule 5.

This Second Supplemental seeks for;

60 Aspirational 1 hour 'window' Firm Rights

The duration of these proposed rights is until July 2028.

LIS is working on behalf of Sizewell C project to secure rail capacity to meet the build program requirements. The origin locations of the materials are not known yet – this is subject to a formal procurement process. LIS are trying to ensure that there is sufficient capacity over the three key rail supply corridors:

1. Parkeston to Sizewell C
2. London (Wembley) to Parkeston
3. Leicester to Parkeston

**4.5 Long Term Planning Process:** Is the Long Term Planning Process (or similar devolved authority or regional service delivery project) relevant to this application? If so, please explain how the proposed rights are consistent or inconsistent with this.

N/A

## 6. Incentives

**6.1 Train operator performance:** please describe any planned projects associated with the operation of the proposed services aimed at improving your performance.

There are no planned projects associated with the particular flows in the Second Supplemental Agreement.

**6.2 Facility owner performance:** please describe any planned projects associated with the operation of the proposed services aimed at improving the facility owner's own performance.

There are no planned projects associated with the particular flows in the Second Supplemental Agreement.

**6.3 Restrictions of use:** set out and explain the reasons for any changes from the Restrictions of Use regime in the model freight track access contract (Schedule 4)

N/A

## 7. Enhancement

**7.1 Enhancement details:** Please provide details of any relevant enhancement schemes. Where the proposal delivers part of, or the associated services are subject to, a network enhancement, please summarise the outputs and timescales of the scheme and explain the extent to which the Part G Network Change procedure has been completed.

Sizewell have an agreement with Network Rail to fund additional signalling on the East Suffolk Line; upgrade level crossings and relay track on the Sizewell branch, as well as build a new rail line direct to the Sizewell C construction site. The scheme is currently at GRIP 4 with construction works due to commence early 2025 ahead of Sizewell material by rail freight trains commencing from January 2026. There is a dedicated Network Rail Scheme Sponsor for this enhancement project – Katherine Scott supported by Rowland Stepney.

**7.2 Enhancement charges:** please confirm that the arrangements for the funding of any network enhancements are consistent with the [investment framework](#), and summarise the level and duration of payments, and the assumed rate of return.

N/A

## 8. Associated access contracts

**8.1 Associated applications to ORR:** please state whether this application is being made in parallel with, or relates to, any other previous, current or forthcoming applications to ORR (e.g. in respect of track access, station or light maintenance depot access contracts). Where the application is being made in parallel with any other application from the same operator, please ensure the applications are consistent with one another. Where the application relies on another operator relinquishing access rights, please provide details.

This application is made under Section 22a of the Railway Act in accordance with the ORR's letter of 24 April 2024 advising on the process for managing competing and/or complex track access applications until the Dec 2025 timetable change.

**8.2 Unregulated access:** please comment on whether any contracts are being negotiated for access to a facility adjoining Network Rail's network (e.g. to a freight light maintenance depot), including where ORR's approval is not required. For more information, see [The Railways \(Class and Miscellaneous Exemptions\) Order 1994](#). (This is relevant in the context of clause 6.4 of the model contract.)

N/A

## 9. Pre-application consultation

### 9.1 The consultation:

If consultation has not been carried out, explain why not.

This application is made under Section 22a of the Railway Act in accordance with the ORR's letter of 24 April 2024 advising on the process for managing competing and/or complex track access applications until the Dec 2025 timetable change

If a consultation has been carried out please:

- state who conducted the consultation;
- list all train operators and any other parties that were consulted, stating which parties responded and attach their responses and any associated documentation to this form; and
- state the period allowed for the consultation. If this was less than one calendar month, please explain the reasons for this.
- If the consultation was concluded some time ago, please explain why you consider it is still valid.
- have there been any material changes since consultation that could affect the validity of the responses received?
- please list any information that you have redacted from any documentation sent to consultees and the reasons for the redactions.

N/A

**9.2 Resolved issues:** please explain any issues raised by consultees which have been resolved.

N/A

**9.3 Unresolved issues:** Please explain any issues raised by consultees which have **not** been satisfactorily resolved and why you think these issues should not stop ORR approving the application. Include details of steps taken to resolve the dispute such as meetings or counter offers and provide copies of correspondence where available.
