**Subject:** Fw: Great North Western Railway Company Ltd (Trading as Grand Central) - Section 18 consultation

Hi Jonathan,

Following our telephone conversation on Monday, our only concern with this proposal would be that your new trains are routed through Platform 1 in the Up direction. If so, the departures at xx.09 would be a conflict with our xx.07 departures from Platform 4 towards Derby. If they were all platformed in Platform 5 which is the main platform for through services in the Up direction, this would not cause us a problem as the two moves would be parallel.

Could you please check with Ops Planning and confirm the platforming of these proposed trains?

Many thanks,

Lanita
