

Application to the Office of Rail Regulation for a passenger track access agreement, or amendment to a passenger track access agreement under sections 17-22A of the Railways Act 1993

1. Introduction

Please use this form to apply to the Office of Rail Regulation (ORR) for:

- directions under section 17 of the Railways Act 1993 for a new track access contract. Section 17 allows companies who want the right to use a railway facility (including Network Rail's network) to apply to ORR for access if they are not able (for whatever reason) to reach agreement with the facility owner.
- approval under section 18 of the Railways Act 1993 for a new track access contract. Section 18 allows companies to apply for approval if they have agreed terms with the facility owner.
- approval of a proposed amendment (agreed by both parties) under section 22 of the Railways Act 1993 to an existing track access contract.
- directions under section 22A of the Railways Act 1993 for an amendment to an existing track access contract. Section 22A allows anyone seeking an amendment to an existing track access contract which allows the operation of more extensive services to apply for a compulsory amendment if they are not able (for whatever reason) to reach agreement with the facility owner.

If it is the facility owner, Network Rail will carry out a pre-application consultation. In this case fill in this form up to section 7.3. You should fill in the rest of the form after the consultation and before applying to ORR. If you are unhappy with the facility owner carrying out the consultation, you should ask ORR to do so. If this is the case, you should complete this form in full before submitting it to us.

The form sets out ORR's standard information requirements for considering applications. It cross-refers throughout to our [criteria and procedures](#) (C&Ps). The C&Ps explain the process, timings and the issues we will expect to consider. You should use the published [model passenger track access contract](#) as your starting point when drafting the contract or amendments you want. Please read the C&Ps and the Code of Practice before applying.

We are happy to talk to you before you apply. Please contact us [here](#).

You can download a copy of this form, and of ORR's model track access contract, from the ORR website: www.rail-reg.gov.uk.

The purpose of this Supplemental Agreement is to:

- Allow one current East Coast Newcastle <> London service to start and finish at Sunderland.
- The rights being sought are quantum only, within Service Group HB01.
- These extensions will apply to weekdays only.

The application is being made as East Coast seeks to operate a direct service between Sunderland and King's Cross which will provide the 6th direct service between Sunderland and London, complementing those services provided by Grand Central. The train from Sunderland will provide a valuable arrival into King's Cross before 10:00, whereas the evening return service will provide a later departure than the current last direct train of the day at 19:18. These services will run non-stop between Newcastle and Sunderland.

Sunderland <> Newcastle Extension

East Coast currently has a firm right to operate the following service between Newcastle and King's Cross. East Coast is seeking a contingent right to extend this service back to Sunderland:

*Depart Sunderland 06:10, depart Newcastle at 06:30, arrive King's Cross 09:37; **or**
Depart Sunderland 05:40, depart Newcastle at 06:00, arrive King's Cross 09:08*

East Coast currently has a firm right for the following service between King's Cross and Newcastle. East Coast is seeking a contingent right to extend this service through to Sunderland:

*Actual timings will be confirmed following completion of the timetable development process.

East Coast currently has rights to operate services via Sunderland as a diversionary route and is now seeking rights to serve Sunderland.

3.2 Terms not agreed with the facility owner (for applications under sections 17 or 22A only): please set out here any areas of the application which have **not** been agreed, the reasons for the failure to agree and the reasons for seeking these provisions. **C&Ps para 3.102**

NR is assessing the impact and risk associated with this application.

There are existing firm rights held by Nexus (for DB Regio Tyne & Wear) for up to 6 trains per hour. NR is currently assessing if capacity exists should all operators exercise their rights.

This incremental enhancement to the timetable is designed to provide a valuable peak arrival into King's Cross before 10:00 and a later departure for the last direct return service of 20:00.
