GB Railfreight Limited
DB Cargo (UK) Limited

Network Rail Infrastructure Limited

By email only

Dear Sirs,

Appeals under Part M of the Network Code by GB Railfreight Limited and DB Cargo (UK) Limited in respect of decisions TTP1331 and TTP1376

1. On 18 January 2019, we confirmed that we would hear the above appeals. We proposed to first consider: (i) whether the TTP was correct in determining that TTP1331 and TTP1376 raised issues which were outside its jurisdiction; and (ii) if not, whether the Hybrid Timetable properly took effect as the New Working Timetable.
2. We noted that we would consider whether we require any further information from the parties on these issues and would revert to you on this as soon as possible.
3. We confirm that we do not currently require any further information on these issues and we will revert to you as quickly as possible.

Yours faithfully

Katherine Goulding
